**First Name** - William

**Last Name** - Weatherford

**Organization Name** -

**About file** - I urge you to vote NO to Medicaid expansion and ObamaCare. As a retired military member, I have seen the promised life-time health care pushed over to Medicare at age 65, and then Medicare drastically cut to help pay for ObamaCare, and many physicians now refusing to accept Medicare patients. This means my health care choices are diminishing, and the outlook for my healthcare appear to much more expensive. If the labor unions, companies, congress, and others wanting to be excepted, do the right thing and exempt everyone. Unfund Obamacare and kill it.
